

## New Seal Design Requirements Questionnaire

1. Application/Panel Thickness (Carrier)	
2. Gap Width & Tolerance (Bulb/Wing Size)	
3. Application Direction (Top, Side, Other)	
4. Bend Radius and Direction (Angle and Plane)	
5. Estimated Annual Usage (Footage per year)	
6. Temperature Requirements	
7. Chemical Resistance Requirements	
8. Material Requirements (Silicone, EPDM, PVC, Other)	
9. Other Environmental Concerns (Smoke, Flame, Toxicity)	
10. Industry Testing/Qualifications Required (UL50E, ASTM, FDA)	
11. Seal Color (Black is standard)	
12. Compression/Closure (Seal) Force Requirements (Force per Length)	
13. Insertion/Extraction (Carrier) Force Requirements (Force per Length)	
14. Other Requirements
